## About Shoviv NSF Merge

Shoviv NSF Merge Software is very useful to the technical or non-technical person who merges two or more NSF files into a single NSF file. In this product, you can select multiple NSF files (minimum of two NSF files) Selected NSF file will be merged into a single NSF file using three methods.

**Those methods are given below:**

**(1) Join Outlook NSF File :** Shoviv NSF Merge tool allows you to join two or more NSF files into a new NSF file by creating the new folder respectively. These new folders name will be same as store name of the given NSF files. If two or more NSF files store name are same then at a time of join NSF file the first creating new folder name will be same of the store name and next creating new folder name will add 1 in the store name. At the time of Join NSF file, each NSF file saves own data in a respective new folder.

**(2) Merge Outlook NSF File:** Shoviv NSF Merge tool allows you to merge two or more NSF files of a similar folder into a new single NSF file. In Merge option, this tool merges together all similar folder from multiple NSF files like inbox, contacts, notes, calendars, sent items, tasks, drafts, journals, to-do list etc.

**(3) Merge Outlook NSF File Contact :** Merge All Contact of Selected NSF file into new single NSF file.
